A Merry Christmas.

Another year has well nigh gone, and Christmas has come around again. The winged hours have fled swiftly along, bearing man, with his joys and sorrows—his restless ambition and lofty aspirations, and his vain repinings—his mad greed for wealth, and his good or bad use of it when obtained—his wisdom and his follies—all onward towards the end. In the olden days of simplicity, frugality, and thrift, when there were ancestral homes for rich and poor, and the Yule log blazed on the hearth in the great hall and the old cottage alike, and the branches of the families gathered around in a cheerful, joyful home circle, and listened to the quaint old Christmas carols—there was a natural propriety in the celebration of the day—"*Merry Christmas*!"

There are few such scenes now, comparatively, yet there are, after all, many hearts made happy about these hours—hearts of both young and old—in the giving and receiving of tokens of regard and affection, and about this time, while we write, hosts of little hearts are beating with anxiety to know what old Santa Claus, the mysterious friend of children, will bring for their share.

We trust that none of them will be disappointed in their Christmas hopes, and wish that the day may be as merry and as happy a one as any of our friends desire.

Hard Times for Railroads—Descriptive Trip from Prairie du Chien.

We had a call yesterday from Mr. V. A. W. MERRILL, for a long time Foreman in our office, but now editor of the *Courier* at Prairie du Chien, where, we are glad to learn, he is doing well, and building up a fine business. He gave us some items of his experience on his journey hither, which will serve to illustrate the obstacles which the Mil. & Miss. R. R. Co., like other western companies, have had to encounter as the result of the late heavy snow storm.

His party left Prairie du Chien one morning, *two weeks ago*, and arrived the same night at Boscobel, 24 miles this side, being the first station on the railroad. The snow drifts were deep, and no trains could get away. Getting a fair start on the shovelled track after two or three days delay, the train brought up in a deep drift some six miles this side of Boscobel, and then commenced the work in earnest. The train would plunge into the drifts, the snow being sometimes as high as the tops of the cars, and coming to a dead halt, wait till the shovellers—passengers and all amusing themselves that way—could clear the wheels, and then, running back, dash in again. So they struggled, but three days and nights passed in making a dozen miles progress. Provisions were all gone; only scanty supplies could be obtained from the few farm houses accessible. Parties were detailed to cut and bring wood for the engines, and they kept up steam with difficulty in the four locomotives. At length, after almost despairing of being thawed out till spring, one of the working parties returned to the train at about 2 o'clock one morning, with the joyful report of having heard the whistle of engines coming from the eastward, and the excitement was intense till, just about daylight, the relief train from Madison, with 4 engines, which had been working for several days from the eastward, broke through the drifts, and "hitching on," the whole train moved to Muscoda.

After cleaning out the provisions at Muscoda, which were scanty enough for famished people, the train, with 4 of the engines, worked through with considerable speed. The track was then clear to this city, but Mr. Merrill was obliged to stay a day or two in Madison, and meantime the rain storm had packed the snow so as to dam up the drains, and the water stood deep on the track in many places, and in this condition of things the mercury fell below zero, and congealed the water to ice which seemed to be as hard as iron, so that nothing but the slow work of the pickaxe could clear the track for the wheels, and the train was two days in getting to this city.

Our informant speaks in high terms of the energy and perseverance of Mr. S. S. MERRELL, the Assistant Sup't, who came through from Boscobel, and, with the conductor and all hands, worked like heroes.

La Crosse & Milwaukee R. R.

We make room to-day, with some difficulty, for the circular of Mr. KILBOURN, President of the L. C. & M. R. R. Co., inviting the attention of capitalists to the opportunity offered them of investment in the bonds of the Company. We presume that the smart moneyed men of Wall Street will not allow such a chance to escape them, and that the books will be closed on the appointed day, with the necessary amount filled, and the Company provided with the means of pushing forward its great enterprise with all possible speed.

APPLETON UNIVERSITY—CHAIR OF CIVIL ENGINEERING.—We are glad to hear that a movement is being made for the endowment of a professorship of Civil Engineering in the Appleton University, and Dr. COOK, the President of the Institution, has recently visited our city on business connected with the enterprise. We trust that it may be successful. The citizens of Appleton have commenced well by pledging $4,000 towards the endowment, the sum of $25,000 being required.

It is considered very desirable to move at once in the matter, in order to secure if possible the services of Prof. C. B. SHAW, late of Virginia, now in our city, who is every way admirably qualified for the position, having occupied a similar one in Virginia with honor and usefulness, but who has left the "Old Dominion" to live and pursue his profession in a land where thought and speech are free.

KANSAS AID.—The Janesville *Standard* "takes on" dreadfully at our exposure of its brutal way of treating the subject of raising means to aid the suffering settlers of Kansas through the winter. Its contortions leave room for hope that there is some little conscience left the concern, and that it is troublesome.

One would suppose that the accounts of the arrival of food and clothing in the Territory, and their distribution among the brave, true-hearted, men and women there who have been prevented by the Border Ruffians from provoking for themselves, would cause a feeling of pleasure in the minds of all humane people. But the allies of these same Border Ruffians proclaim only only find occasion in these accounts to sneer at the Free State settlers as beggars. Shame!

☞ We invite the attention of railroad men to the following Circular from Mr. KILBOURN, prefaced by a paragraph from the money article of the N. Y. *Tribune*.

The La Crosse & Milwaukee Railroad Company.

The possessors of the land grant made for the purpose of building a road from Portage City to St. Croix, near St. Paul, have issued proposals to the stockholders offering two millions of bonds based upon the lands and road upon very liberal terms. The proceeds of these bonds will be used in the construction of the road next year, and they are offered first to the stockholders, who are considered to have the best right to any advantages which may accrue from their distribution. They are 7 ℘ per cent bonds, due in 1875, interest payable in New York, and are to be issued at 80 ℘ cent, payable in installments up to September next. Accompanying each bond will be a scrip for ten shares of stock, which the party subscribing thereto will have the option of taking on paying a call of 5 ℘ cent. This privileged stock will not be further assessed until the roads are completed, and not then unless necessary after exhausting all the proceeds of the land grant and all available resources. The trustees of the mortgage are three of our most respectable citizens—the Hon. Greene C. Bronson, Mr. Shepherd Knapp, President of the Mechanics' Bank, and Mr. J. T. Soutter, President of the Bank of the Republic. These gentlemen possess the confidence of the public, and are a sufficient guaranty of the faithful performance of the trust. The stock privilege attached to these bonds gives them a speculative value, which, in view of large premiums obtained for the Illinois Central rights of the same character, will doubtless attract attention. These rights, of which there were seven given with each bond, are selling at 22a23 ℘ cent premium. The La Crosse road gives ten rights to the bonds, has the same amount of land to the mile, with a route more directly in the line of travel east and west, and without the land grabs would doubtless be a paying road. The circular of the President, annexed, goes fully into the detail of the proposition.

OFFICE OF THE LA CROSSE & MILWAUKEE R. R. CO., No. 8 Wall st., N. Y., Dec. 15, '56.

TO THE STOCKHOLDERS—*Gentlemen*:—On the 5th of November last I addressed a circular to you stating, somewhat at length, the past operations and future plans of the company, and among other things, exhibited a plan of finance by which we proposed to provide the necessary funds for continuing our operations, and completing our system of improvements. As copies of that paper have been sent to every member of the company, it is not necessary for me here to repeat that plan further than to convey to you an idea of a change or modification which it is proposed to adopt. Since having my circular printed and distributed, it has also received considerable attention from some of the stockholders individually, than by the one heretofore proposed.

You remember that in my circular I estimated the amount of land applicable to the road from Madison to the St. Croix to be equal to 385,000 acres, worth $18,515,000, and that it required $10,250,000 to complete our roads, which would leave an excess of $5,385,000, which sum would be sufficient to pay our existing debt, and refund to stockholders a very reasonable part of the amount paid by them on stock. Also, that of this $10,250,000 required to complete the road, I then proposed to raise $8,000,000 by bonds issued on the security of a mortgage, which should include the roads from Madison to St. Croix, and from Portage City to La Crosse, and also the land applicable to the construction of those roads, and the remainder by means of the full paid stock of the company, which would be issued to the present or future stockholders, they paying full amount thereof, and at a future day be entitled to stock dividends thereon to the amount of all bonds sold and applied on payment of bonds so issued.

Instead, however, of making these bonds for the amount of $8,000,000 only, and raising $2,500,000 in stock, we propose to issue bonds to the amount of $10,000,000, secured on the aforesaid lines of road, equipments and lands; and these bonds are to form the basis upon which the Company intend to procure means to build and equip their said lines of road. These bonds are of the denomination of $1,000 each, and bear date 1st of February, 1857, and are redeemable in twenty years from their date, with half-yearly Coupons annexed, at the rate of seven per cent, payable in the city of New York. The Company reserve the right to take up these bonds at any time before their maturity, on paying to the holder the sum of $1,100 and accrued interest therefor, being at the rate of 10 per cent premium. It was stated in the circular that in order to give the strongest possible guarantee for the safe-keeping and faithful application of the funds of the Company, it would be necessary to select three Trustees, whose position and standing would give full assurances to that effect. The Company have selected Messrs. Greene C. Bronson, Shepherd Knapp and J. T. Soutter as Trustees for such purpose; and they have confidence in believing that these names furnish all necessary guarantee for the faithful performance of the before-mentioned trusts.

For the present, but $2,000,000 of these bonds are to be issued and disposed of, which will afford the company the means to prosecute their work during the ensuing year.

The Company now offer to their stockholders the privilege of subscribing for these bonds to the amount which they may severally hold of the capit l stock, on the 20th day of December inst., (the time of closing the books.) Such subscription may be made at any time between the said 20th day of December and the 2d day of January, 1857. The bonds are to be sold at 80 ℘ cent, and accrued interest—payable 5 ℘ cent at the time of subscribing, 5℘ cent on the last day of February next, and 10 ℘ cent on the 1st day of March, April, May, June, July, August and September, 1857, respectively. Accompanying each bond there will be a scrip for ten shares of stock, which the party subscribing thereto can have the option of taking on paying 5 ℘ cent on its par value. No further installments will be required to be paid on this stock, until the roads shall be completed, and not then nor thereafter, unless the same shall be required by reason of some unexpected emergency, to meet liabilities of the Company after exhausting the avails of the land grant and other available resources.

A few words of explanation will render clear to every one the effect which this measure will have on the interests of stockholders, for whose benefit alone it is proposed. The whole number of the stockholders being, in the aggregate, the owners of the whole stock or capital of the company, it matters little to them at what price the Company sells its bonds to them, provided, only, that they be in each in the proportion of their respective interests, and provided, also, that there be a sufficient amount of money is obtained to accomplish the object of the Company in the completion of its work. While, therefore, we consider those bonds worth at least 90 cents on the dollar, yet, in order to present a motive to each stockholder for taking a lively interest in the operation of the Company, we propose to give to each a limited amount of the present issue of bonds at 80 cents, and also a stock privilege, which, it is estimated, will be a clear bonus of its entire amount to the holder.

If, as anticipated, the Land Fund should be sufficient to pay the Bonds issued, and in addition thereto refund the amount heretofore paid in stock, it follows that when the roads are completed, the stock will be in the hands of the holders a clear gain; or, in other words, if the Land Fund should pay all the cost of the building of the road, the stockholders will be refunded from that source what they have paid in stock, and still remain the owners of the road. Consequently if the income from the earnings of the road shall be such as to make the stock worth par or over, the shares in the hands of each will be to that amount a clear profit to the holder. And inasmuch as each stockholder can secure the benefit of the privileged stock, by the purchase of bonds at a price below their actual value, he secures a material benefit, without really divesting himself of any part of his own capital, but, on the contrary, can actually make a small advance in the sale of the bonds, reserving to himself whatever benefit may be derived from the stock. The advantages flowing from this operation will be twofold.

1st. To the Company as a whole by furnishing all the capital that will be required for its operations during the ensuing year, and for the completion of the Western Division of the road to La Crosse, and

2d. To the stockholders individually, both in the benefits to be derived from the double investment as above shown, and also in the early completion of the road to La Crosse, which from the day that it is opened to that point, will, in my judgment, make an annual dividend of at least 20 per cent on its stock; consequently everything which expedites the work hastens this result. Whenever the road shall have been finished to La Crosse, we confidently expect that its income will be so large that it will take rank with the very best roads in the country upon its own merits, not excepting any; and when we take into consideration that behind its own intrinsic merits, it has a valuable land fund to pay its debts, it must be clear to the comprehension of every one, that it will possess a value greater than any other road not having all those advantages.

To illustrate: The Galena and Chicago road has for seven consecutive years paid over 20 ℘ cent net earnings on its stock, and it is stated will the present year pay over 24 per cent. Its stock now stands on the market at $117 or $118 ℘ share, and will probably go higher. Now, suppose that in addition to these great earnings, that road had a land grant sufficient to have paid all the expenses necessary to its construction, the value of this stock and those large dividends would be a net gain in the hands of stockholders, the fruit of their confidence in the enterprise when it required support. Such will, beyond question, be the result in the case of the La Crosse road, for upon its completion it will do as large and lucrative a business as the Galena or any road can do, and therefore must make as large returns to our stockholders, and consequently, I repeat, that those who have the sagacity to hold their stock until these results can be realized, and make the necessary advances of money on the bonds of the Company to bring about their speedy accomplishment, will find themselves at an early day the owners of one of the most productive and profitable railroads in the United States. The position, locality and direction of this road are such that they will bear the closest scrutiny in a business point of view, and the more they are investigated the better they will appear; and it is a gratifying fact that those best acquainted with its elementary advantages have the highest confidence in its value.

The object of this communication, as will be apparent, is to invite the stockholders to take up the two millions of bonds in the manner mentioned, between the 20th inst., and the 2d of January, in order that we may, immediately after that date, put the work under contract, with a view to its being completed by April, 1858, or on the opening of navigation on the Upper Mississippi one year from next Spring, which result I am happy in being able to say to you can be accomplished, if at this time you contribute in the manner and to the amount above proposed.

Books will be opened for subscriptions to the bonds at the office of the Company, No. 8 Wall street, New-York City, and at the Secretary's office in Milwaukee on the 20th day of December inst., and remain open till the 2d day of January next, inclusive. Stockholders at a distance who cannot conveniently visit the office of the Company, can make their subscriptions by signing the accompanying agreement, (specifying the number of bonds,) and inclosing it with 5 ℘ cent of the amount subscribed to Henry L. Richards, Register, Office La Crosse and Milwaukee Railroad Company No. 8 Wall street, New-York, or to any other agent they may choose to employ for that purpose

Very respectfully,
Your obedient servant,
BYRON KILBOURN, President.

THE LUNATIC ASYLUM CONTRACT.—Mr. ABBOT, one of the counsel for the State in this case, in his summing up, said:

It is shown by the evidence that on the last day for receiving bids, and before any bids had been opened by the Commissioners, Proudfit was introduced by one of the Commissioners to the only competitor for the work, and that he (Proudfit) gave or agreed to give to such competitor the sum of one thousand dollars to disclose to him the terms of such bid, which was accordingly done, and the consideration afterwards partially if not wholly paid

From a careful consideration of the testimony in the case, the proof is overwhelming, and the conclusion irresistible that such unfair advantage was sought and such dishonest and fraudulent means were resorted to by the claimant as utterly to deprive him of any legal or equitable claim against the State for damages by reason of the refusal of the state to perform on its part a contract so obtained and entered into.

We shall have our say in relation to this whole subject when the decision of the commission is made. Till then, we refrain from comments.

THE COLLINS LINE OF STEAMERS.—A few days since, in the U. S. Senate, Mr. Stuart presented the memorial of Edward K. Collins and associates, contractors for carrying the mails between New York and Liverpool, setting forth that the original contract does not enable him to keep up successful competition with the British line, sustained as it is by the increase of government support. They expressed an unwillingness to surrender to England the great national ocean supremacy they have now, and desire, if it must be surrendered, it shall be done by hands other than their own; and ask, inasmuch as they embarked in the enterprise at the solicitation of our government, that Congress may pass a law to terminate their contract and dispose of their ships, so that they may be relieved from their undertaking without loss.

The memorial was referred to the Post Office committee.

What the case of "Dred Scott" means.

The case of Scott, the Missouri slave, now in course of argument before the U. S. Supreme Court at Washington was quite fully explained in an article which we published yesterday from the N. Y. *Courier & Enquirer*. It is well understood to be, as it stands at present, a made up case, to procure the decision of the Court in favor of the following positions, for the benefit of the Slavery Extensionists,—the summary is from the Albany Evening *Journal*.

1st. That the owner of human beings can lawfully sojourn with them in a Free State, and maintain his claim to them as his "chattels," the laws of that State or the Law of Nations to the contrary notwithstanding.

2d. That men of color, though gifted as Fred. Douglas, Ward, McCune Smith, or Garnet, or as gifted as angels in virtue and intelligence, are *not* "citizens" of the United States.

3d. That the "Equality of the States" requires that property in Slaves should be as fully recognized and protected in all the States of the Union, as property in horses is recognized and protected in all the States of the Union.

4th. That the constitutions of the free States prohibiting Slavery are "penal Statutes," which neither the Courts of the Slave States, or of the United States, are bound to enforce, or bound to regard.

The Slavery extensionists will have a good time in holding their chattels in some of the States, we reckon.

Dr. Dart Living.

The following note was received yesterday, in reference to a paragraph of ours called out by the request of influential persons, in Oregon, to have Dr. Dart sent back as Superintendent of Indian Affairs.

RIPON, Dec. 21, 1856.

EDITOR SENTINEL:—In your paper of the 20th inst., I notice a paragraph in relation to Dr. Anson Dart, late Supt. Indian Affairs for Oregon, in which you make it appear that he died several years ago. I am happy, in this connection, to be able to inform you that my father is still living now in Washington, D. C., and that his family reside in this village.

Yours truly,
R. DART.

THE SLAVE TRADE.—A correspondent of the Augusta (Ga.) *Chronicle and Sentinel*, reviews the positions of the Democratic party for several years past on the slavery question and concludes as follows:

"I therefore prophecy that within four years the opening of the African slave trade will be a plank in the Democratic platform; that every man who does not subscribe to it will be branded as faint hearted and an enemy to the North; that it will elect a Northern man for President, opposed to the Democracy; that it will be charged that the whole North has become abolitionized, and a dissolution of the Union moved on account of it; that a certain many stump orator in Georgia will swear he has been in favor of it all his life, and that one hundred lick-spittles will stand ready and offer to swear they heard him so swear, and will give the time and the occasion."

NON-INTERVENTION.—The Madison *Patriot* resists the interference of the Chicago *Times* in the quarrels of the democratic papers in this state. It says:

We go for non-intervention both in Kansas and elsewhere. We are a nation of Democrats, up here, among the Badgers, and claim the privilege of doing our own quarrelling in our own way, and when we need the services of outsiders, we will ask for them. You don't understand our disease, and of course your nostrums will be of no service, and besides you may, like Dr. Brandreth, be obliged to swallow your own pills!

THE STATE PRISON COMMISSIONER.—Mr. McGarry, the present State Prison Commissioner, appeared before the Governor in compliance with the citation, yesterday. Thro' his counsel, Mr. R. G. Ryan, he raised the question of the power of the Governor, under the constitution, to take cognizance of the charges against him.—Mr. Ryan argued the point, taking the position that the law authorizing the proceeding is unconstitutional, it being an exercise of the power of impeachment, which is vested in the Legislature exclusively by the constitution. A. Scott Sloan, Esq., of Beaver Dam, replied, on the part of the prosecution, in an able argument. Gov. Bashford overruled the objection raised by Mr. Ryan, and the further hearing of the matter was then postponed until the 15th of January.—*Madison Journal*.

Rhyme for the Atlantic Telegraph.

BY ARQUEBUS.

World! What wonder is this,
Grandly and simply sublime?
All the Absolute signs
Leap in a nothing of time!
Even the steeds of the sun,
Hair'd with day passing behind,
In the first race that is run,
Won by a flash of the Mind!

Lo, on this sensitive link
—It is one link, not a chain—
Man to his brother can think,
Spanning the breath of the Main;
Man to his brother can speak
Swift as a bolt from a cloud;
And where its thunders were weak
There his least whisper is loud!

Yes: for as Providences wills,
Now doth Intelligent Man
Conquer Material Ills,
Weaving them down as he can,
And by one weak little coil
Under the width of the waves,
Distance and time are his spoil—
Fetter'd as Caliban slaves!

Ariel?—right through the sea
We can fly swift as in air,
Puck? for a minute we shall be
Both to the bow that we bear;
Here to earth's girdle indeed,
Just a thought-circlet of fire,—
Delicate Ariel freed,
Sings, as she flies on a wire!

Courage, O servants of light!
For you are safe to succeed;
Lo, you are helping the right
And shall be blest in your deed,
Lo, ye shall bind in one band,
Joining the Nations as one,
Brethren of every land,
Blessing them under the sun!

This is Earth's pulse of high health
Throbbing in every heat,
But, you must watch in good sooth
Lest to false fever it swerves,—
Touch it with tenderest truth,
As the world's exquisite nerve!

Let the first message across
—High hearted Commerce give heed—
Not be of profit or loss,
But one electric indeed;
Praise to the Giver be given
For that He giveth Man skill,
Praise to the Great God of Heaven,
Peace upon Earth and goodwill!

BUSINESS OF STEVENS' POINT.—Some idea of the amount of business which is done in our interior towns, and especially of the amount awaiting the completion of the Milwaukee & Horicon R. R. to the Wisconsin River, may be formed from the summary of the invoices of goods received by business men in Stevens' Point, for the fall and winter trade, the figures footing up no less than $156,800! So the *Pinery* makes them.

DEATH OF DR. PUSEY.—The mails by one of the late steamers brought news of the death of Rev. Dr. Pusey, who created such excitement in the English Church by the publication of the Oxford Tracts. His associate, Dr. Newman, long since went over to the Roman Catholic Church, but Dr. Pusey remained in the Establishment, and was the leader of the "High Church" party.

HON. JOHN F. POTTER.—Mr. POTTER, our Congressman elect, was in town yesterday, looking hale and hearty, after his late victory over the bogus democracy of this district. Long life to him!

Correspondence of the Cincinnati Gazette.

FROM KANSAS.

Who are the "Nigger Stealers"?

LAWRENCE, Dec. 5.

Yesterday another outrage was committed at Strangers Creek, on John Williamson, a half breed Choctaw, whose mother was a negro, by a party of Missourians.

Williamson had been brought up among the Choctaws, spoke their language and that of the Delawares fluently, and was a free man. He had been living for some time with Logan Zeigler, a Delaware, half breed, whose father, a Pennsylvania Dutchman, married a Delaware Indian woman, and has a large farm on the East side of Stranger Creek, about half way between Leavenworth and Lawrence. Logan lives on the West side of the Creek and keeps the half way house, where the stage line changes horses.

A party of Missourians from Platte county stopped there yesterday, and attempted to take Williamson, alledging that he was a fugitive slave—that he did not belong to any of them, but they knew that he did belong to, and meant to take him back to Platte county. Williamson retreated into the house, and seized Zeigler's shot gun; which, though it happened not to be loaded, served to intimidate the Missourians. A parley followed during which Williamson approached one of the Missourians and snatched his loaded revolver.—He then retreated, keeping his face to the party, with cocked pistol, ready to return their fire. They did not fire, however till he was beyond the range of pistols, when they discharged their rifles and wounded him in the breast. He succeeded in reaching Lawrence, where he now lies in a precarious condition.

The Missourians returned to Leavenworth and were last night talking strongly of raising a party of eighty men to go up to Lawrence to take Williamson. They were very much excited about it and quite a number of citizens of Leavenworth volunteered to go.

The Borderers are threatening to give us another winter's devastation and bloodshed. Colman, the murderer of Dow and several others, of the same stamp, are publicly walking the streets of Leavenworth and no notice taken of them by the bogus authorities.

AFTERNOON SESSION.

The motion of the appellee, in Carter *et. al.* vs. Darling *et al* to dismiss the appeal was denied.

City of Racine and J. M. Earl *vs.* O. W. Barnes—Motion to stay proceedings sustained.

The Court then adjourned until Monday, the 5th of January next. At that time the calendar will be called the second and last time, the present term, commencing with the ninth circuit.—*Madison Journal*.

WORK TO BE COMMENCED ON THE RAILROAD BRIDGE!—We learn that the Superintendent of the Bridge, contracted to be built by Messrs. Stone, Boomer & Co., over the Wisconsin River at this point, is on hand; also the foreman of the Masonry department. We understand they commence immediately with such work as is necessary to be done this winter, and will drive the work along as fast as possible. The Superintendent starts to-day, (Tuesday,) for the Pineries to make the necessary arrangements for timber, &c. And the foreman of the Masonry work proceeds immediately to getting out stone for the abutments.—*Kilbourn City Mirror*.

☞ A party with U. S. Mails arrived from Lake Superior, the day before yesterday. We understand it is the intention to continue this matter as often as once a fortnight at least, during the winter. ☞ There is a mail route established by Congress we are told, from *Stevens Point to Ontonagon*; some enterprising frontiersman should make a bid, though Mr. WASHBURN or Senator DODGE, for service on the route. He would make his fortune by it.—*Steven Point Pinery*.

Chicago Market.

CHICAGO, Dec. 23

There is no change in the Grain or Flour market, and but little doing therein. Millers give $6 35c for milling spring, and wheat remains 25a30c for sample, when delivered. Corn sells at 33a36c, depending on place of delivery and want of purchasers. Oats sold at 24c in bags delivered. New Corn is coming in freely and in good quality, to which city trade pays 37½c—distillers pay 40c delivered on distillery.

The Hog and Provision market is very firm. The number of Hog buyers here is large, which keeps prices high; to-day as high as 5.20a5.25 was paid for heavy dressed Hogs, and $5 gross is asked by holders of live Hogs—*Tribune*

RESCUING AWAY WITH A VESSEL—CAUGHT IN A TIGHT PLACE.—Some time since the schooner *Isabella*, of Toronto, was disabled in a gale, and was repaired at Rochester by Messrs. Lodgers & Marshall, of Charlotte. The contract provides for the payment of $353, but the contractors demanded it remaining like $150 for extra work. The contract price was paid by the Captain and Mr. Baird, of Toronto, the owner, but they refused to pay the extra demand. A few days since, E. & M went before Justice Reed, of Greece, swore out an attachment, and levied on the schooner. Finding that the process was not likely to stand a law-suit they went to Rochester and procured an attachment from the Supreme Court, and the sheriff seized the *Isabella* and tied her up. The Captain and Mr. Baird were told that the first process was not good, and that they had better leave the vessel. Inferring that the sheriff's papers were no better than the constable's, they left Rochester on the 16th, for Toronto, with the Isabella. A storm drove them back into port the same time, and into the clutches of the sheriff, who put them in jail. The grand jury were in session, and indicted them for felony. They were arraigned in court and gave bail to answer. They have committed a grave offence against the laws, but, being foreigners, it is probable they were not aware of the fact.

CASE & SANBORN,

GENERAL REAL ESTATE AGENTS,
Fox Lake, Dodge County, Wisconsin.

TO THOSE desirous of locating in a place where business will increase and become permanently profitable,

FOX LAKE

Presents unusual inducements. It is so situated as to command, permanently and exclusively, the trade of the *largest one best* agricultural district Wisconsin affords. Said agriculture being the great basis of business in the west, it follows that this must be one the largest inland towns in the State. The superior improvements, educational advantages, &c., show conclusively that it is in a prosperous condition, and *more also as a guarantee for the future*.

We offer the following

FARMS FOR SALE.

The celebrated Schlamough Place, on Lake Emily, 6 miles north of Fox Lake, 600 acres first-rate soil, over half improved prairie, balance heavy timber, with an excellent Lime Stone Quarry. Price $25 per acre, one-third down, balance in 5 years, 7 per ct.

80 acre *choice prairie*, over half improved, 1½ miles west of Fox Lake, $2,800, $800 down, balance in 3 years.

40 acres, 4 miles east, all improved, $1,000, half down.

160 acres *prairie*, with a *timber lot*, nearly half improved, 7 new house, well, &c., 2 miles from Fox Lake.—This is a good farm, and will be sold low.

80 acres prairie and openings, all available, within ten minutes walk of the Fox Lake College, would make a pleasant country residence, and will be sold below anything in market.

We have also for sale, at low prices, a large number of lots, and some pleasant houses and lots, located in different parts of Fox Lake. octdy

Dalley's Magical Pain Extractor.

THE great and principal characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist:

1st. Of its never-failing and unique property, as soon as applied to any external injury, TO CHECK INFLAMMATION instantly, and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of burns and scalds and of other painful diseases, in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain is produced by inflammation of the injured parts; and, therefore, if you remove the cause the effect must cease.

2d. Its purifactive properties neutralise the poison that may lurk in the system, and will, when applied to the sores, heal rapidly all impure matter to the surface, and eject it—hence the great discharge it produces from sores occasioned by burns—and when applied to old, inveterate sores, salt rheum, or other cutaneous diseases.

Each box of GENUINE DALLEY'S PAIN EXTRACTOR has upon it a Steel Plate Engraved Label with the signature of C. V. OLCOTT & CO., proprietors, and HENRY DALLEY, manufacturer. All others are counterfeit.—Price 25 cents per box.

☞ All should be addressed to C. V. Olcott & Co., 51 Maiden lane, New York.

Sold by all Druggists and Medicine Dealers throughout the United States. oct14 2d 119d 4w6m
